SKILLS

DESIGN

I'm fluent in Illustrator & Photoshop in creative and production environments. I'm very comfortable pencil-sketching and creating wireframes. I get excited about packaging design, secondary branding, native/web application design, and the potential of wearable technology.

DIRECTION

I'm direct, consistent, and have very high standards. I can manage varying personalities with curated, constructive criticism and I'm often quick to offer solutions during ideation. I enjoy collaboration, but am able to work independently. I excel in stressful and unconventional circumstances.

CLIENT

I'm very good at building rapport and strengthening flimsy briefs with supportive and connective questions. I'm very comfortable sketching in an "over the shoulder" environment.

I'm a comfortable communicator, with no issues presenting concepts, or calmly responding to client pushback in a presentation environment.
